[Acekard 2i Update For Dsi 14580](#)

3 0-10 - 17,533 views Download firmware upgrade for AceKard 2i DSi flash cards AceKard 2i with a 3DS Firmware Update (also known as AK3 or AceKard.

1. [acekard update](#)
2. [acekard 2i update](#)
3. [acekard 2i firmware update](#)

Load the card on the borrowed DS and run the that update file (make sure you dont interrupt the update and have a full battery when doing it, it will only take a minute but you dont want it stopping half way) This file is not on acekards website as it has some copyrightable infomation within it, (which actually fools the DSi into thinking its a guinine game, 'Danny Phantom') There are more detailed guides online just search for 'DSI 1.

3 and lower still To fix this you need to update the actual acekards firmware (different to Akaio RC2 software you copy to your SD card)so you must find someone with a DS/Dslite or DSi with firmware 1.. 4E: After copy/paste files from acer kard com re 'AKIO 1 5 1' to MicroSD it works fine.. Load the card on the borrowed DS and run the that update file (make sure you dont interrupt the update and have a full battery when doing it, it will only take a minute but you dont want it stopping half way) This file is not on acekards website as it has some copyrightable infomation within it, (which actually fools the DSi into thinking its a guinine game, 'Danny Phantom') There are more detailed guides online just search for 'DSi 1.. I wonder though, why it did not work asap with files from the site re ak2_41_release.. If your Dsi has firmware of 1 4 then the acekard has been blocked with this firmware and will give an error, but your acekard will work on all other DS systems and DSi's of firmware 1.
